FOREWORD

This directory and classification of the secondary schools of Pennsylvania has been compiled with a desire to have available more complete information than has been contained in previous lists of classified High Schools.

Junior High Schools have been included in the classification for the first time. The location of the school, the number of full time and part time teachers, enrollment by grades, and the number of non-resident pupils have also been included in order to have this data easily available.

FRANCIS B. HAAS

Superintendent of Public Instruction

November 12, 1925.

DIRECTORY AND CLASSIFICATION OF SECONDARY SCHOOLS

The State Department of Public Instruction presents herewith the Annual Directory and Classification of High Schools for the school year 1924-25. The classification of the school is given, both in terms of the former terminology and also in terms of the new classification, as provided by the last legislature.

A table is given below from which it is possible to identify the classification of the school, both in the terms of the rating formerly given, and the rating of the school given under the new terminology. The symbols used in the classification list and the years of secondary work for which each type is classified, are also given.

FORMER CLASSIFICATION	NEW CLASSIFICATION	SYMBOL USED	YEARS INCLUDED
First class	4-yr High School	4-yr HS	9-12
Second class	3-yr High School	3-yr HS	9-11
Third class	2-yr High School	2-yr HS	9-10
Jr.-Sr. High School	6-yr Jr.-Sr. HS	6-yr JSHS	7-12
Junior High School	Same	JHS	7-9
Senior High School	Same	SHS	10-12
5-yr Jr.-Sr. High School (Transitional)	Same	5-yr JSHS	7-11
4-yr Junior High School	Same	4-yr JHS	7-10
Vocational High School	Same	Voc	
Not Classified		NC	

Each school is given the highest rating for which it can be recognized. A school having a six-year organization, where the Junior High School is not approved, but approval has been given for a High School of grades 9 to 12, is classified as a first class High School, or in terms of the new classification, a four-year High School.

The supplementary data given for each school have been taken from the annual High School report. For some schools these data were incomplete, and in other cases no report was received.

The standards for classified High Schools are as follows:

1. The school term must be at least 180 days.
2. The minimum number of properly qualified teachers for each type is:
 - a. Four-Year High School—three teachers.
 - b. Three-Year High School—two teachers.
 - c. Two-Year High School—one teacher.
 - d. Six-Year High School—five teachers.
 - e. Three or Four-Year Junior High School—four teachers, (in rural communities where enrollment is small, a minimum of two or three teachers may be approved).
3. The program of studies and the plan of organization must conform to the standards and regulations established by the Department of Public Instruction.
4. In a Junior-Senior High School, grades 7, 8, and 9 must be administered as a Junior High School unit, and grades 10, 11, and 12 as a Senior High School unit. A departmentalized organization on the 6-2-4 plan does not satisfy the requirements for a Junior-Senior High School and cannot be so classified.
5. Methods of instruction; pupil attitude; application and achievements; school plant and equipment; professional activity of teachers and general morale of the school must be approved by the responsible county or district superintendent of schools and the Department of Public Instruction.
